**Hydra-Pac Synchronous Power System Features**

- Synchronized control of 4 lifting points.
- Ability to safely raise/lower multiple cylinders.
- Safe and efficient control.
- Accuracy of ±/− 10% regardless of pressure.
- Easy to operate – simple and user friendly.
- Mechanical operation - no wires or electronics.
- Standardized components.
- Ergonomic design.
- For use with standard 10,000 psi single or double-acting cylinders.
- Ports can be paired to double flow rate at full pressure.
- Removable wheels.

**Always follow operating manual instructions and safe jacking practices.**
